# RAUVISIO FINO

## Entering the world of lacquers

REHAU offers a cost-effective and high-quality alternative to lacquered components with RAUVISIO fino. Regardless of whether it is high-gloss or matt surfaces, the lacquered laminate is used as a vertical furniture front in kitchens, bathrooms as well as in the shop-fitting sector. A permanent, jointless appearance is created on the finished component with the matching zero-joint edgeband.

# RAUVISIO FINO

## Product advantages

RAUVISIO fino captivates with numerous product advantages - regardless of whether it is for processing or subsequent application:

### Flexible processing

Can be processed using conventional woodworking tools

### Substitute for lacquered fronts

Cost-effective alternative for lacquered components

### Maximum gloss level vs super matt

High gloss level or refined super matt - the choice is yours

### Flawless appearance thanks to invisible joint

Permanent, all-round seamless processing with the matching RAUKANTEX pro

### Good light-fastness

Tested light-fastness for interior applications

With RAUVISIO fino, you are opting for a **environmentally-friendly, halogen-free and PVC-free product**, which can be recycled.
